Information

Name	JAPAN BIOFUELS SUPPLY LLP (Limited Liability Partnership)
Chief Operating Officer	Mr. Toshiya NAKAHARA
Secretary General	Mr. Koshi OKUDA
Date of establishment	January 26th, 2007
Partners	JXTG Nippon Oil & Energy Corporation Showa Shell Sekiyu K.K. Idemitsu Kosan Co., Ltd. Cosmo Oil Co., Ltd. Fuji Oil Company Ltd. Taiyo Oil Co., Ltd.
Paid-in Capital	JPY 400 mil
Head Office	Hulic Kyobashi buiding, 7-12, Yaesu 2-Chome, Chuo-ku, Tokyo, 104-0028, JAPAN Tel +81-3-5299-0777 Fax 81-3-3231-0707
Main Activities	1. Procurement of Bio-ETBE and Bio-ethanol 2. Distribution of biofuels to the partners' refineries

Organization

Our Business

JBSL undertakes the procurement of biogasoline components such as bio-ETBE and bio-ethanol and the efficient distribution of the biofuels to the refineries all over Japan.

Delivery Flow

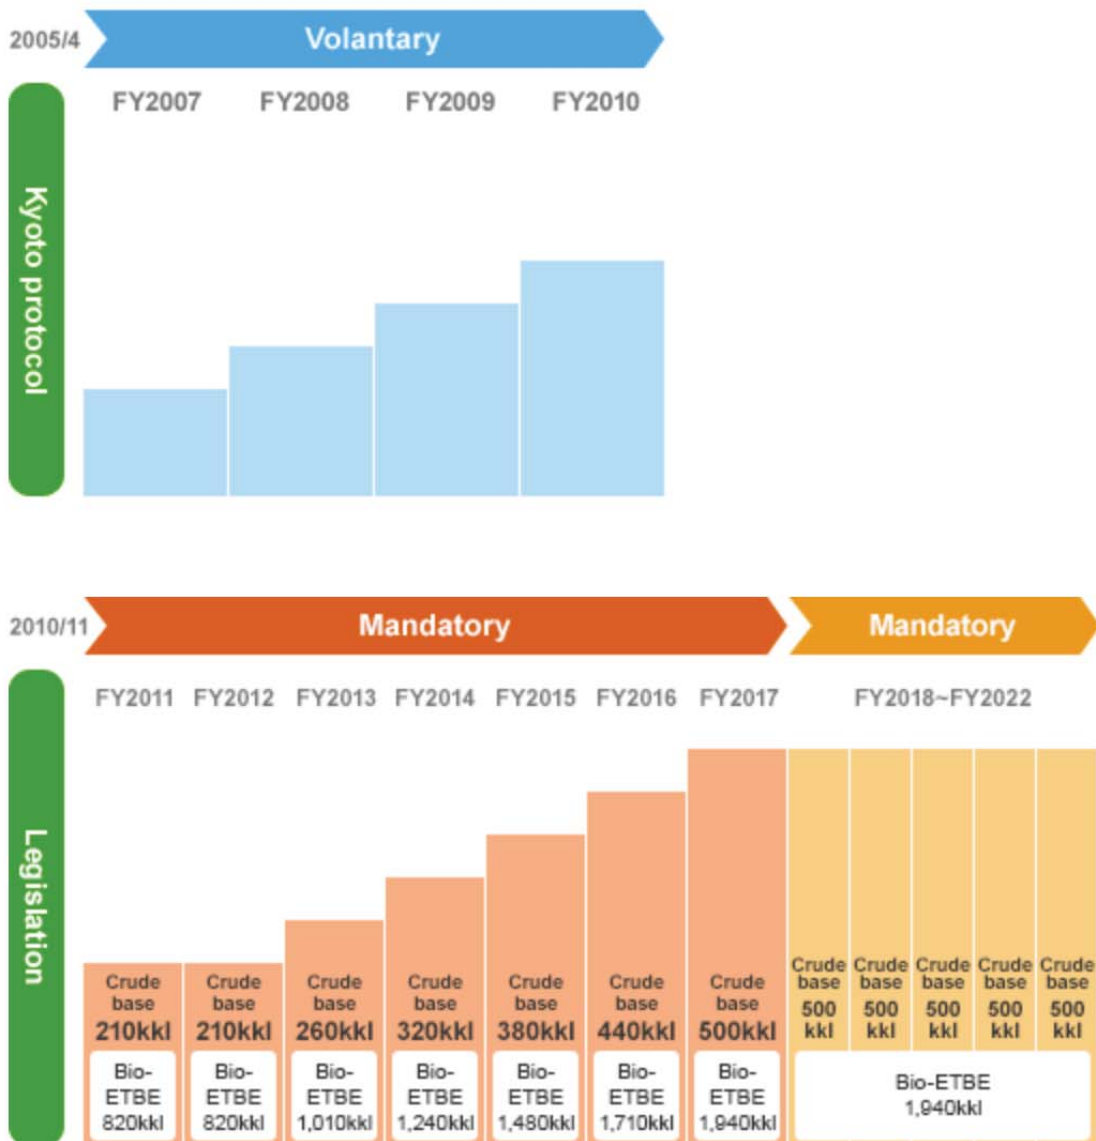

In April, 2005, in line with the Kyoto protocol, the Japanese government specified the use of 500kkl (crude oil equivalent) of biomass fuels for transportation use.

In January, 2006, in response to the request from the government, the oil industry in Japan announced a target plan to blend bio-ETBE (210kkl crude oil equivalent) in FY 2010, and successfully achieved the target.

Mandatory use of biofuels based on the law (Sophisticated Method of Energy Supply Structure) started in FY2011. In accordance with the mandate, the oil industry increased the volume of ETBE step by step up to 500kkl crude oil equivalent(1,940kkl as ETBE) in FY2017.

In April 2018, the government announced the extension of the mandate at the volume of 500kkl crude oil equivalent for each year from FY2018 to FY2022.

History

FY2006 (2006/April - 2007/Mar)	
Jan	JBSL was established.
FY2007	
April	Bio-ETBE import was started.
April	Biogasoline sales (bio-ETBE blended) started in 50 gas stations.
FY2008	
April	Gas stations selling biogasoline (bio-ETBE blended) reached 100.
July	Bio-ETBE purchase contract for 2011 onwards was concluded.
Oct	Bio-ethanol purchase contract for bio-ETBE production was concluded with a Brazilian supplier.
FY2009	
April	Bio-ethanol (Brazil) purchase contract for domestic ETBE plants was concluded.
June	Bio-ethanol (domestic) purchase contract for domestic ETBE plants was concluded.
Sep	The first domestic bio-ethanol was delivered.
FY2010	
April	The first Brazilian bio-ethanol was delivered.
Nov	The order of mandatory use of bio-ethanol or bio-ETBE (2011-2017) based on the law was announced with the target in 2017 equivalent to 500,000kl of crude oil.
FY2011	
April	The mandate of bio-ethanol or bio-ETBE came into effect.
Mar	The target 210,000kl (crude oil equivalent) was achieved.
FY2012	
April	Bio-ETBE purchase contract upto 2017 was concluded.
Mar	The target 210,000kl (crude oil equivalent) was achieved.
FY2013	
Mar	The target 260,000kl (crude oil equivalent) was achieved.
FY2014	
Mar	Domestic bio-ethanol purchase contract was terminated due to the discontinuation of the production.
Mar	The target 320,000kl (crude oil equivalent) was achieved.
FY2015	
Mar	The target 380,000kl (crude oil equivalent) was achieved.
FY2016	
Mar	The target 440,000kl (crude oil equivalent) was achieved.
FY2017	
Mar	The target 500,000kl (crude oil equivalent) was achieved.
FY2018	
Apr	The order of mandatory use of bio-ethanol or bio-ETBE based on the law was announced with the target from 2018 to 2022 equivalent to 500,000kl of crude oil per year.
